Challenge to establish ecosystem of mobility innovation by automated driving

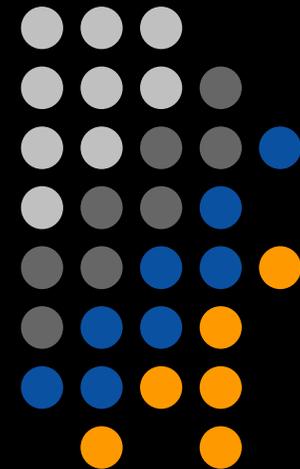

—Academic collaboration and practice

Prof. Yoshihiro SUDA

Director of Mobility Innovation Collaborative
Research Organization (UTmobl),
The University of Tokyo

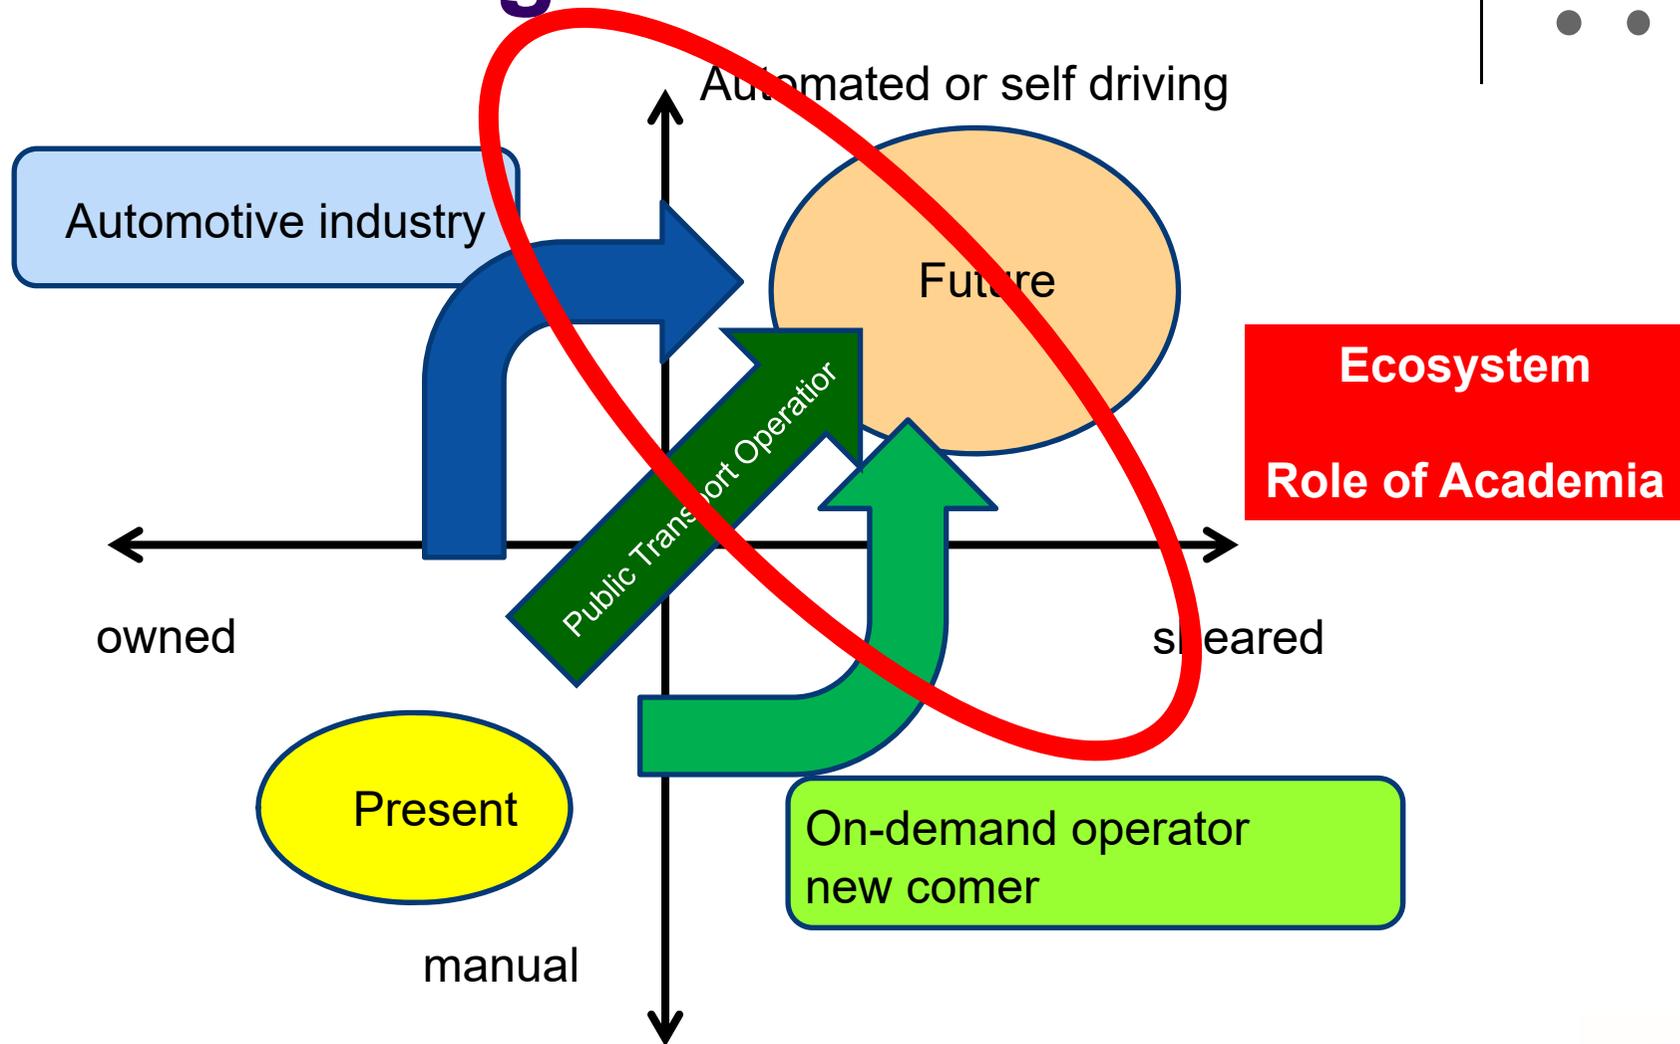

Advanced Mobility Research Center (ITS Center)
Institute of Industrial Science,
The University of Tokyo

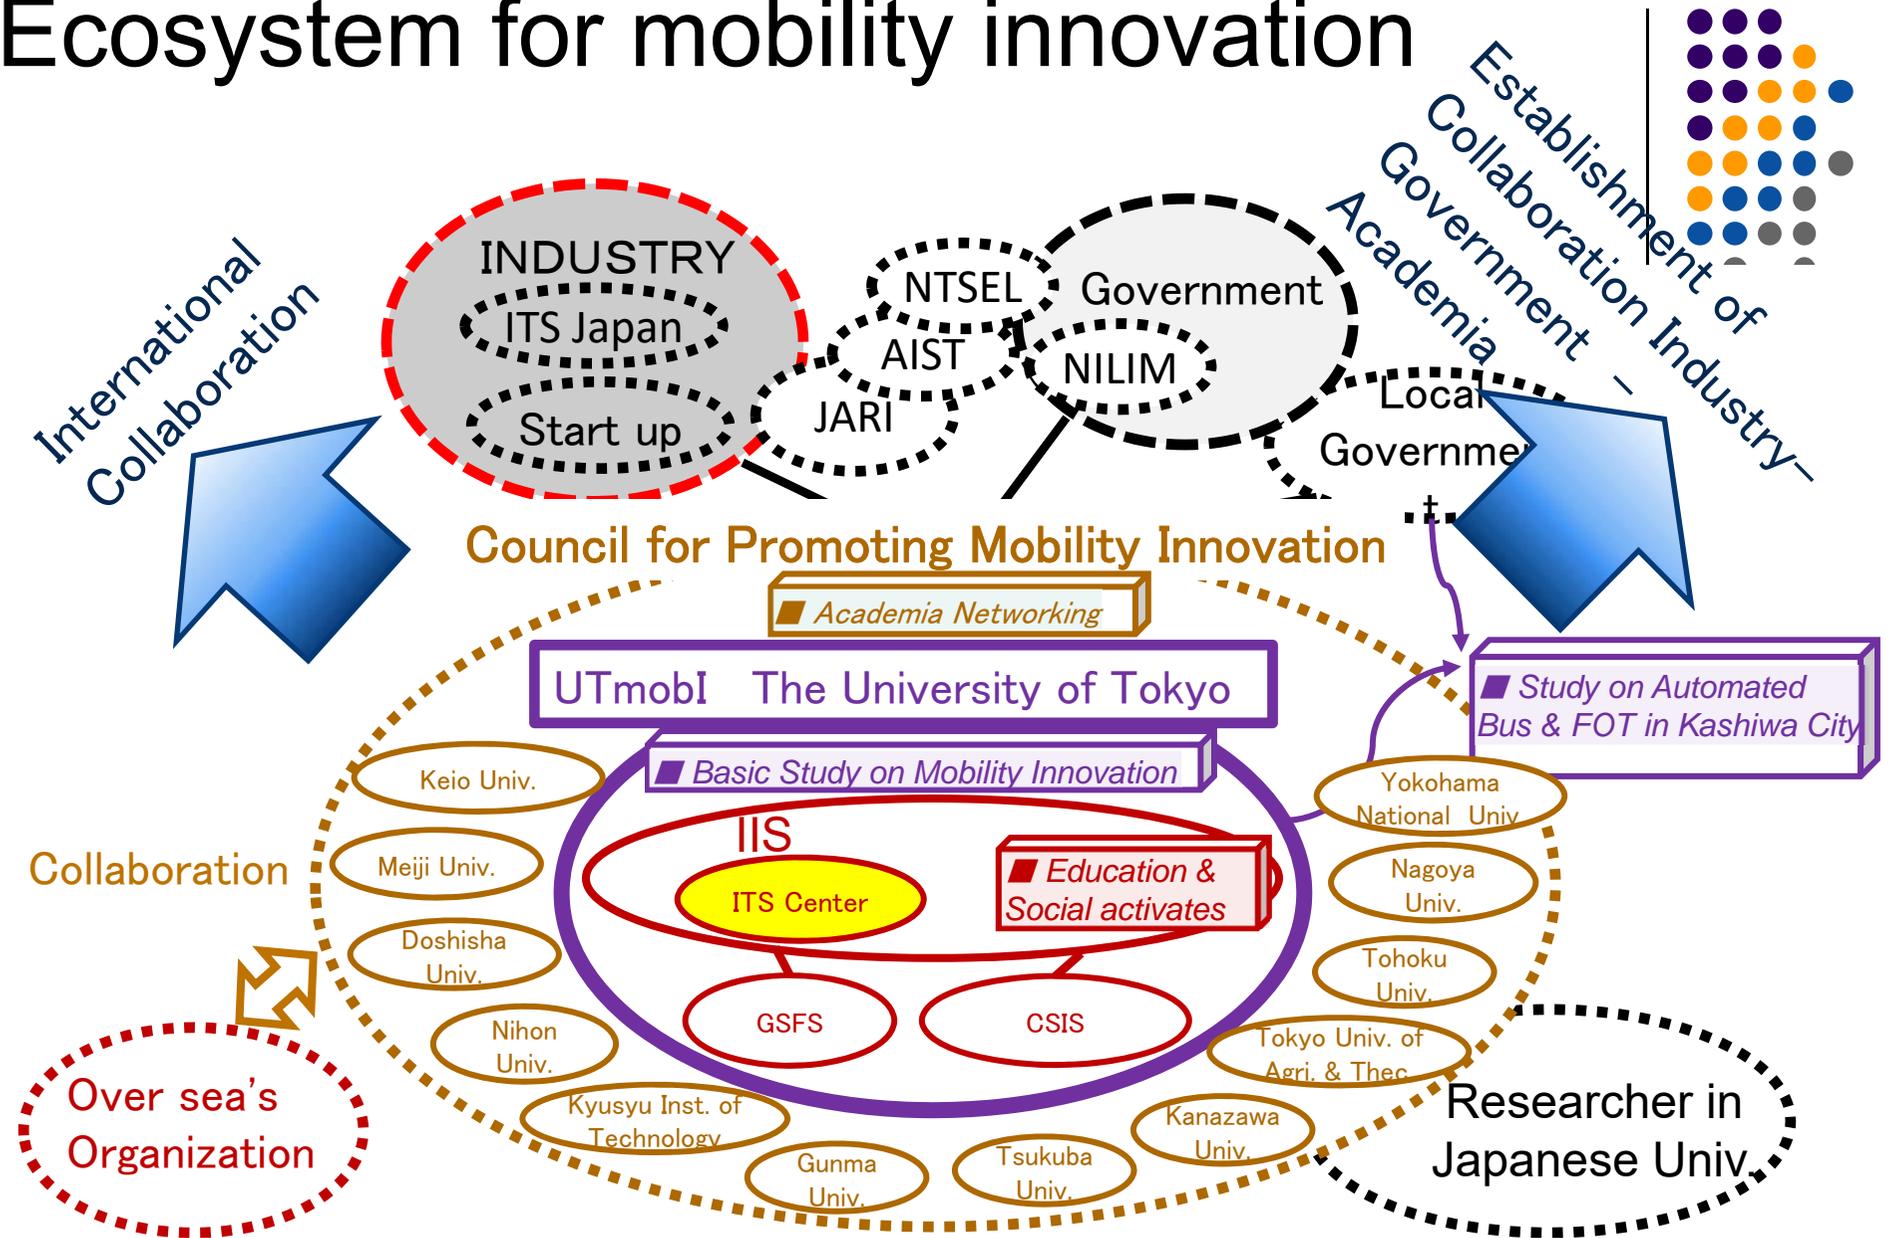

東京大学
生産技術研究所
Institute of Industrial Science,
The University of Tokyo

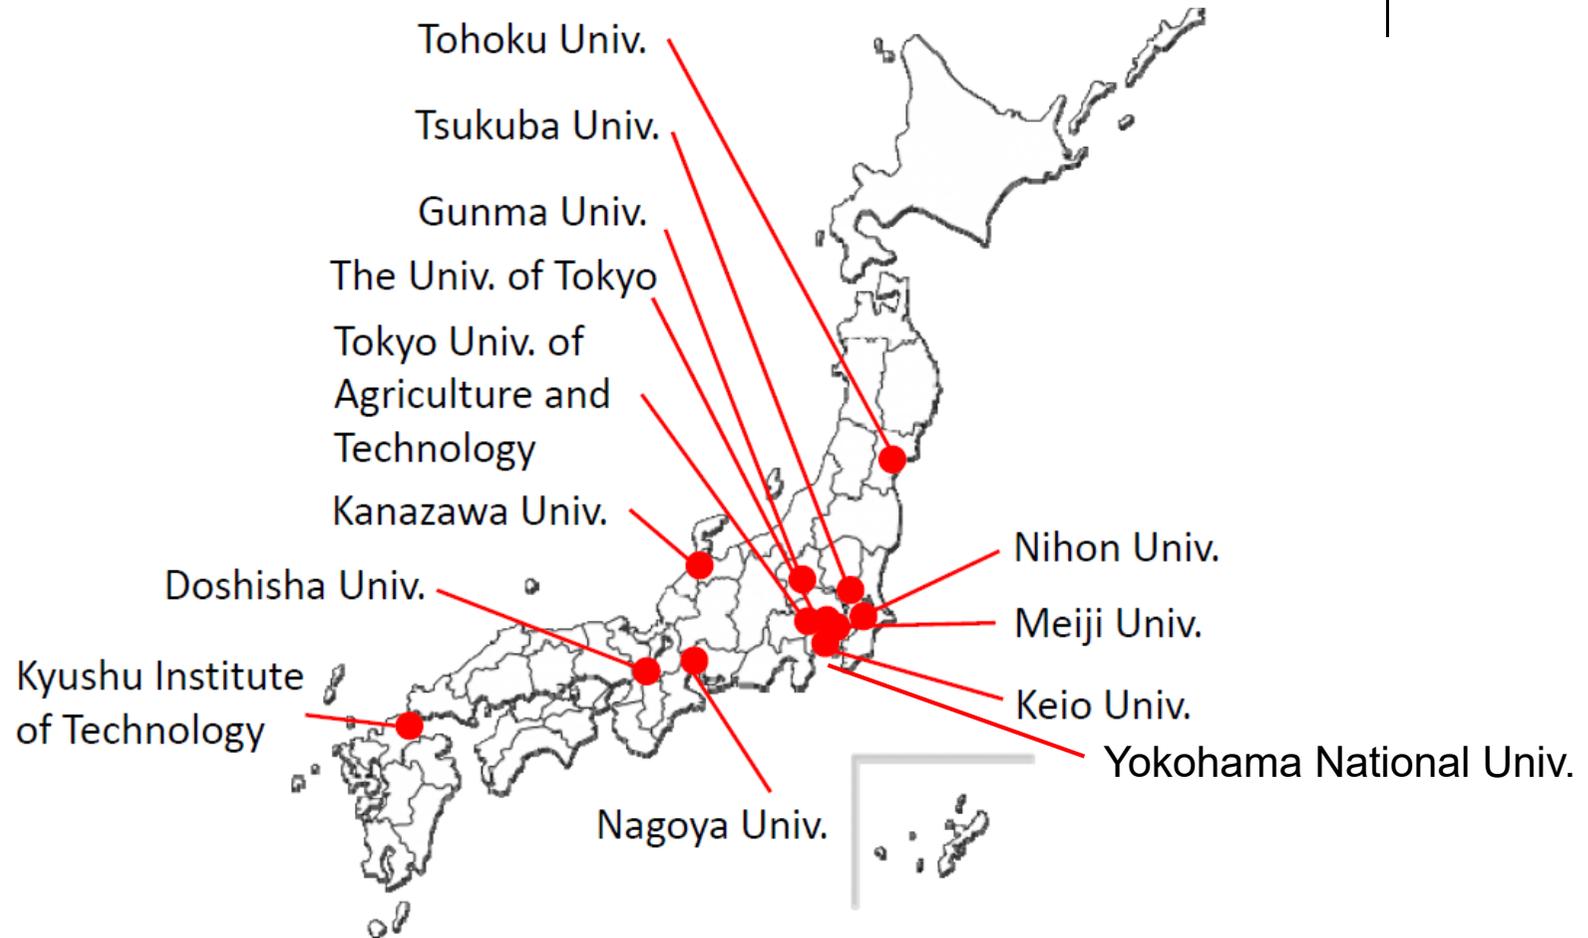

Mobility as a Service and social change

Ecosystem for mobility innovation

Council for Promoting Mobility Innovation

Established in March 2018

Institute of Industrial Science, the University of Tokyo SUDA Lab.

Mobility Innovation Liaison Meeting

- Basic survey program for promoting collaborative research with overseas research institutes related to automated driving by SIP
 - **Council for Promoting Mobility Innovation**
 - AIST; The National Institute of Advanced Industrial Science and Technology
 - NTSEL; The National Traffic Safety and Environment Laboratory
 - JARI ; Japan Automobile Research Institute

Council for Promoting Mobility Innovation

- United Organization of Universities encouraging automated driving.
- Promoting R & D activities effectively and efficiently at each university by knowing each other's strengths.
- By cooperating with each other, a cooperative system to gather the power of the academia in collaboration with the government and industry
- Secretary: **The university of Tokyo.**

Challenge to Mobility Innovation at The University of Tokyo

- Establishment of Mobility Innovation Collaborative Research Organization, The University of Tokyo

UTmobl

Institute of Industrial Science (IIS)

Graduate School of Frontier Sciences (GSFS)

Center for Spatial Information Science (CSIS)

Established in July, 2018 at Kashiwa Campus

Institute of Industrial Science, the University of Tokyo SUDA Lab.

Mobility Innovation Collaborative Research Organization (UTmobl), The Univ. of Tokyo

- 5 Faculties joined in July, 2019 from Hongo and Komaba Campus
- ◆ Institute of Industrial Science (IIS)
- ◆ Graduate School of Frontier Sciences (GSFS)
- ◆ Center for Spatial Information Science (CSIS)
- ◆ **Graduate School for Law and Politics**
- ◆ **Institute for Future Initiatives (IFI)**
- ◆ **Graduate School of Engineering**
- ◆ **The Graduate School of Information Science and Technology (IST)**
- ◆ **The Research Center for Advanced Science and Technology (RCAST)**

Missions

Promote basic research through collaboration among 8 organizations

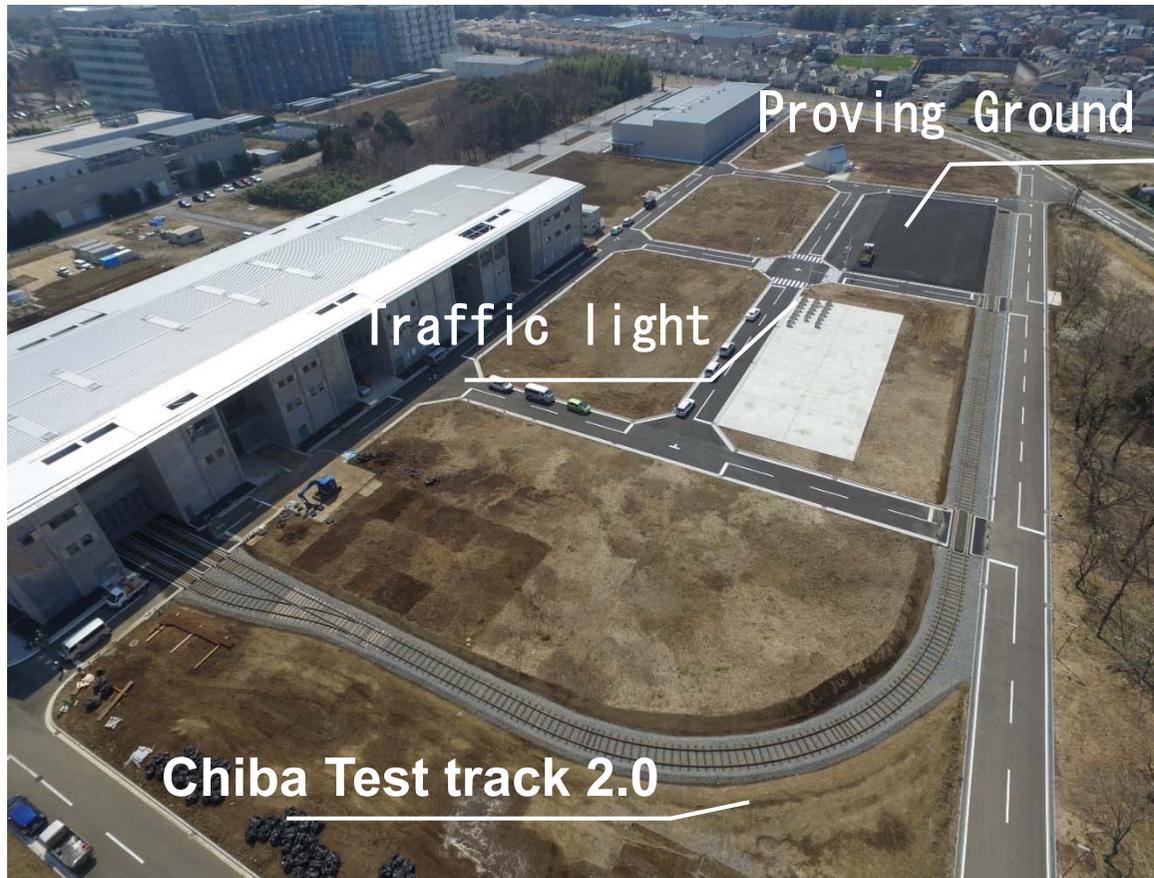

- Design of innovation
- Big data analysis
- Studies on human-machine interfaces

Activities in Kashiwa area

- **Trials and practical implementation of automated shuttle bus**
- Implementation of information center models
- Assessment of the performance of advanced vehicles

The University of Tokyo IIS Chiba Experiment Station constricted ITS R&R Experiment Fields at Kashiwa

April in 2017 open

University-Industry Collaboration :
Advanced Mobility Research Center (ITS Center)
+ Automobile, Railway, Transit, Road Operator
Collaboration Study

Institute of Industrial Science, the University of Tokyo SUDA Lab.

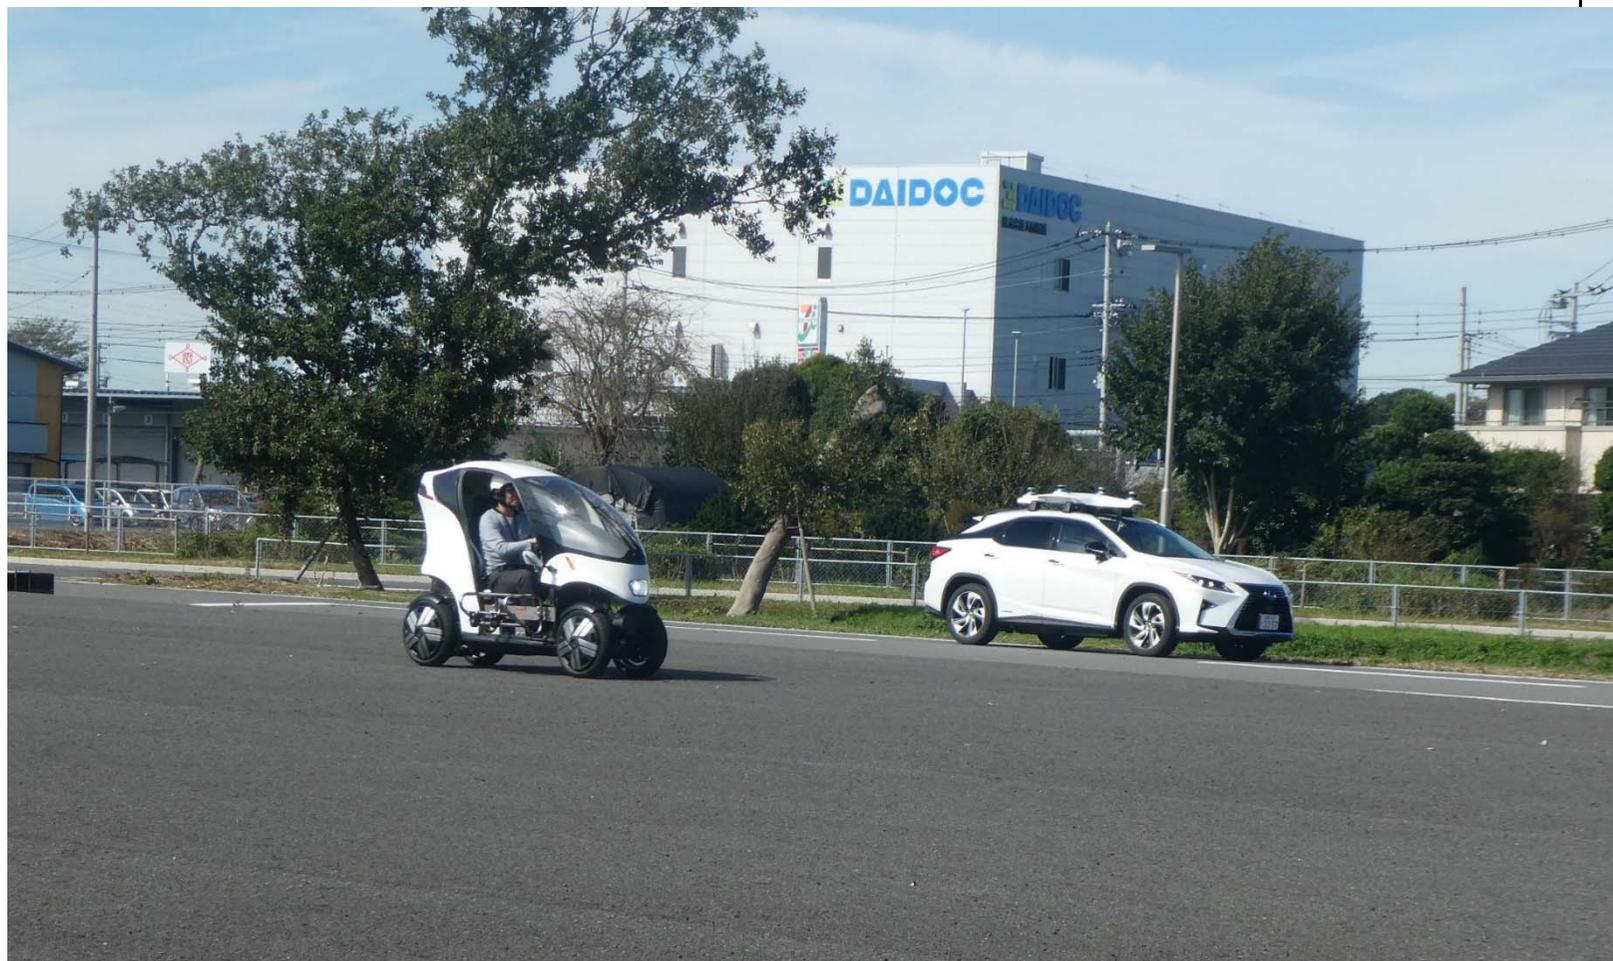

Institute of Industrial Science, the University of Tokyo

SUDA Lab.

Institute of Industrial Science, the University of Tokyo SUDA Lab.

Institute of Industrial Science, the University of Tokyo SUDA Lab.

Chiba flooding as heavy rain in October 25 at Kashiwa Open Campus, The Univ. of Tokyo

Automated Driving on Flooded Road in Oct. 25, 2019

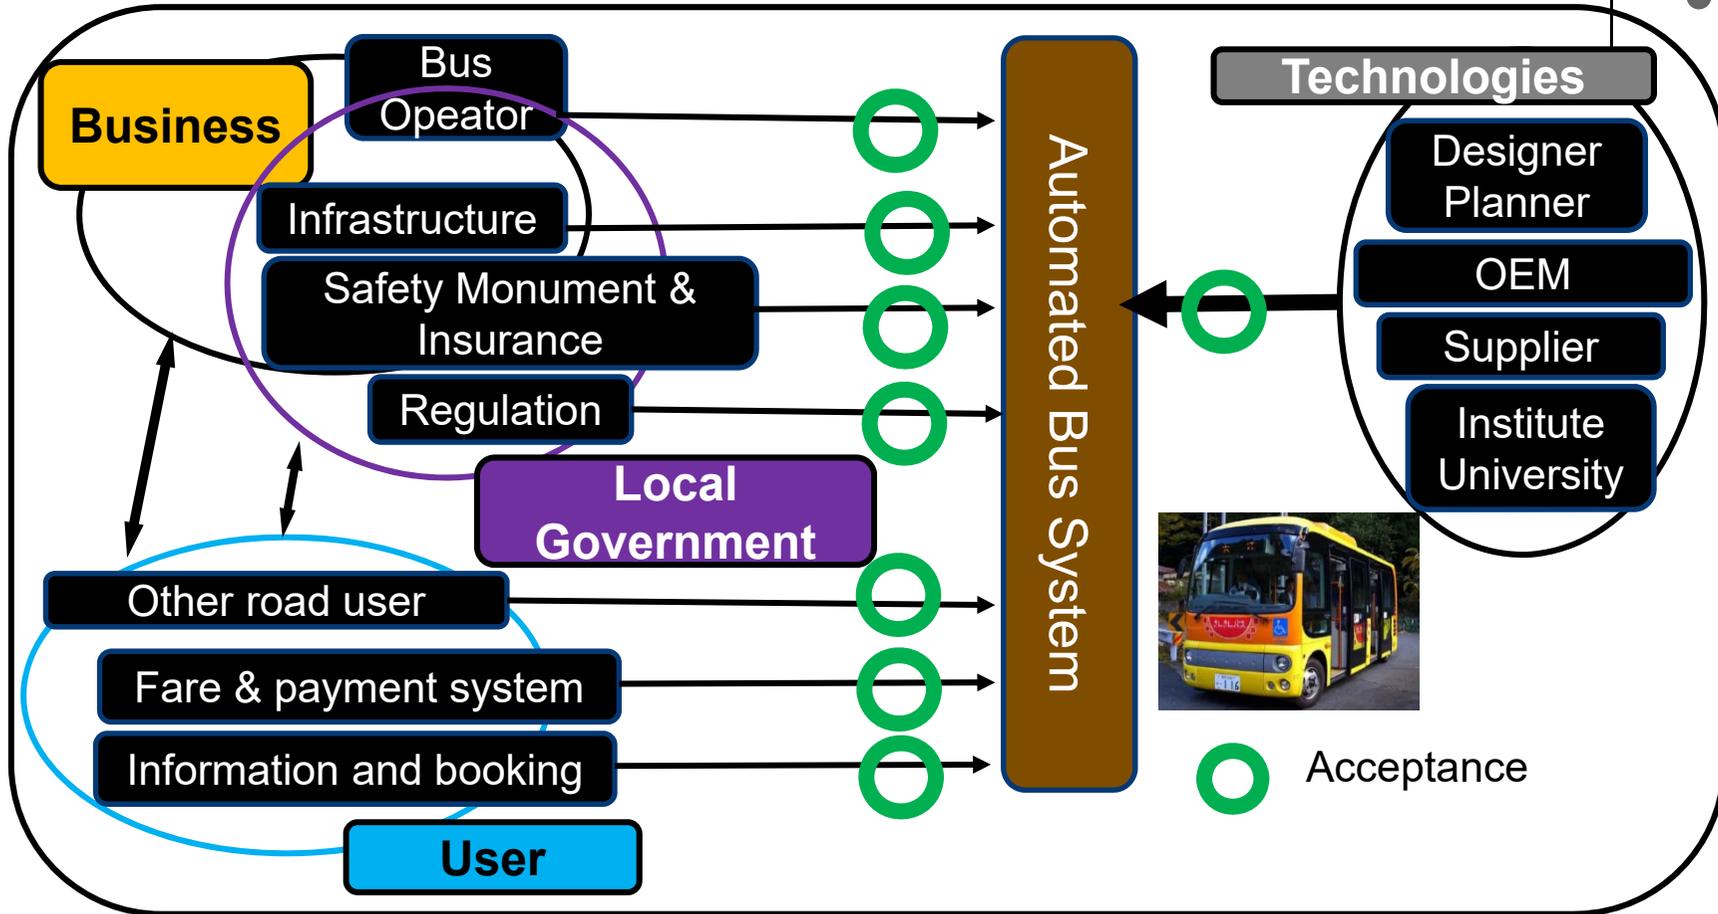

Institute of Industrial Science, the University of Tokyo

SUDA Lab.

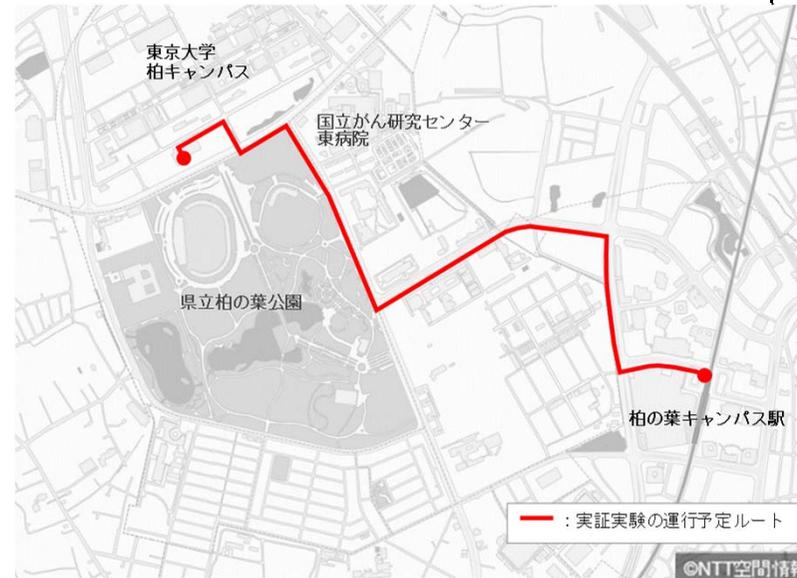

Ecosystem for Automated Bus Service

Platformer and Organizer have important role to achieve ecosystem as final goal in collaboration with **SIP-adus**.

Launched 5 months Automated bus business operation experiment on the public road in Nov. 1, 2019

- Between Kashiwanoha Campus Station of Tsukuba Express Railway and the University of Tokyo Kashiwa Campus
- Level 2

Launched 5 months Automated bus business operation experiment on the public road in Nov. 1, 2019

- 5 months tests from Nov. 1 , 2019 Mar, 31, 2020
- Scheduled 3 round trips per day
- 1 round trip for observation visitor

Operation by “ TOBU BUS EAST” bus driver

TSUKUBA EXPRESS 柏の葉キャンパス駅発						
時	柏キャンパス(基盤棟前・環境棟前)					
8	00	10	20	30	40	50
9	00	10	20	30	40	50

Members of FOT for Eco-system in Kashiwa ITS Promotion Council

- Mobility Innovation Collaborative Research Organization, The Univ. of Tokyo (UTmobl)
- Institute of Industrial Science, The Univ. of Tokyo
- Graduate School of Frontier Science, The Univ. of Tokyo
- Kashiwa City 
- Advanced Smart Mobility Co., Ltd. 
- Tobu Bus East Co., Ltd. 
- Mitsui Fudosan Co., Ltd. 
- SB Drive Corp. 
- The Urban Design Center Kashiwa-no-ha (UDCK) 
- PACIFIC CONSULTANTS CO., LTD. 
- Sompo Japan Nipponkoa Insurance Inc. 
- Mitsubishi Auto Leasing Corporation 

Concluding Remarks

- Business eco-system, mobility as a service are important issue
- Establishment of eco-system for Mobility innovation by leadership of academia
 - Mobility Innovation Liaison Meeting by SIP
 - Council for Promoting Mobility Innovation
 - Mobility Innovation Collaborative Research Organization, The University of Tokyo (UTmobl)
- Practice for Launch 5 months Automated bus business operation experiment in Kashiwa
